

Candidate R035

Synthetic candidate profile

EMPLOYMENT HISTORY

Data Analyst Intern | Saint Thomas Health | 2023-06 to 2023-08

Assisted in building ETL pipelines and data models for patient analytics. Created Tableau dashboards and performed data quality checks.

Research Assistant | Middle Tennessee State University | 2023-09 to 2024-05

Supported a research project on data lineage. Helped document data flows and refine data quality metrics.

Part-time Data Entry Clerk | Murfreesboro Medical Clinic | 2024-06 to 2024-12

Maintained patient records and assisted with basic data cleaning. Learned about data governance in a clinical setting.

SKILLS

ETL/ELT; Data pipelines; Data modeling; Data warehousing; SQL; Python; Data quality testing; Data profiling; Data lineage; Stakeholder management; Requirement gathering; Statistical analysis; Business intelligence; Semantic layer design; Git; Tableau; Databricks

EDUCATION

Certificate | Data Analytics | Motlow State Community College

2022-09 to 2024-06

PROJECTS

ETL Pipeline for Patient Satisfaction

Built an end-to-end ETL pipeline using Databricks to analyze patient survey data. Implemented data quality tests and documented data lineage. Technologies used: SQL, Python, Git.

Tableau Dashboard for Clinic Operations

Created interactive dashboards in Tableau to visualize appointment trends and no-show rates. Gathered requirements from clinic staff and presented findings. Technologies used: SQL.
