

# Candidate E013

Synthetic candidate profile

## EMPLOYMENT HISTORY

IT Support Technician | Community Builders Nonprofit | 2023-01 to 2024-06

Handled helpdesk tickets and on-site tech support for field staff. Created Python scripts to automate data entry, gaining hands-on experience with MySQL and PostgreSQL in a production environment.

Junior Python Developer (Contract) | TechForGood Consulting | 2024-07 to Present

Developing RESTful APIs for a non-profit client. Implementing Redis caching, improving SQLAlchemy models, and setting up CI/CD pipelines with Travis CI and Docker. Debugging and refactoring legacy code.

## SKILLS

Python; Multithreading; Redis; MySQL; PostgreSQL; RESTful APIs; Docker; CI/CD pipelines; Debugging; Refactoring; SQLAlchemy; Git; Linux; Bash

## EDUCATION

Bachelor of Science | Computer Science | California State University, Los Angeles

2019-09 to 2023-06

## PROJECTS

Field Data Sync Tool

Developed a Python tool to sync field-collected data between SQLite and MySQL databases using SQLAlchemy, implementing multithreading for concurrent uploads and Redis for caching. Automated CI/CD with Travis CI.

Asset Tracking API

Built a RESTful API for tracking nonprofit assets. Containerized with Docker, integrated with PostgreSQL, and deployed via CI/CD pipeline. Used PyCharm for development and Bitbucket for version control. Technologies used: Python, RESTful APIs, CI/CD pipelines.

## CERTIFICATIONS

PCEP – Certified Entry-Level Python Programmer

Issued by Python Institute.

2023-01

AWS Certified Developer – Associate

Issued by Amazon Web Services.

2024-01
