

Candidate E033

Synthetic candidate profile

EMPLOYMENT HISTORY

IT Support Technician | Tulsa Community College | 2023-08 to Present

Provide Tier 1/2 support. Manage backups and GCP instances for lab environments. Improve cost efficiency through monitoring with Datadog.

Signal Support Systems Specialist | United States Army | 2019-07 to 2023-06

Maintained tactical comm systems, implemented backup/restore drills, and coordinated with NSA/CYBERCOM. Learned disaster recovery planning and configuration management.

Warehouse Associate | Quicktrip Distribution | 2017-05 to 2019-06

Loaded/unloaded trucks, learned DC operations, and flexible scheduling.

SKILLS

Microservices deployment; Cloud platform management; Version control strategies; Configuration management; Terraform; GCP; GitLab CI; Backup and restore procedures; Cost optimization; Disaster recovery planning; New Relic; Datadog; Splunk

EDUCATION

Associate of Science | Information Technology | Tulsa Community College

2023-09 to date unavailable

PROJECTS

CI/CD Pipeline Project

Built a CI/CD pipeline using GitLab CI to automate deployment of a containerized app to GCP, integrating New Relic for monitoring. Technologies used: Docker.

Disaster Recovery Simulation

Simulated failure scenarios and developed recovery procedures using Terraform and GCP snapshots, ensuring RTO/RPO met standards. Technologies used: Cloud Storage.
