EMPLOYMENT HISTORY

Senior Frontend Engineer | Midwest Learning Technologies | 2023-08 to Present

Lead frontend architecture for mobile learning platform, focusing on performance and accessibility. Implemented design system with Tailwind and improved Core Web Vitals.

Frontend Architect | Innovate Education Lab | 2022-01 to 2023-07

Drove frontend strategy and tooling across multiple products. Introduced Playwright for e2e testing and reduced bundle size by 40%.

Lead UI Engineer | Agile EdTech Solutions | 2020-06 to 2021-12

Managed and mentored a team of three frontend developers. Architected a component library using React and Styled Components.

Senior Frontend Developer | Virtual Classroom Inc. | 2019-02 to 2020-05

Led migration from Angular to React and implemented server-side rendering with Next.js. Improved load times by 50%.

Frontend Engineer | Campus Tools LLC | 2017-11 to 2019-01

Developed responsive web interfaces for student management systems using Angular and Bootstrap.

Web Developer | State University Research Institute | 2016-03 to 2017-09

Built interactive data visualization for research projects using D3.js and React.

UI Developer | BrightPath Education | 2014-10 to 2016-01

Developed and maintained frontend for online course platform using jQuery and CSS3.

Frontend Developer | Digital Learning Systems | 2013-05 to 2014-08

Implemented responsive landing pages and email templates using HTML5 and CSS3.

Junior Frontend Developer | TechStart Inc. | 2012-01 to 2013-03

Created interactive prototypes and supported senior developers in building client websites.
