

Arjun Sen

cand_ml_004@example.test

PROFILE

Machine Learning Engineer working on maintainable systems, explicit checks, and documented operational decisions.

WHERE I WORKED

Machine Learning Engineer | Atlas Sample Services | Jan 2021 - Jan 2026

Built Python training pipelines with split checks and reproducible feature transformations.

Trained PyTorch models and inspected errors by class before changing model capacity.

Used Docker, statistics, observability in delivery work, with peer review and documented failure cases.

Owned a analytics workflow; checked outputs against recorded examples before release.

TECHNOLOGIES

Python, PyTorch, Docker, statistics, observability

EDUCATION

Bachelor of Science | Fictional Institute of Technology
