

Lina Sen

cand_ml_013@example.test

PROFILE

Machine Learning Engineer working on maintainable systems, explicit checks, and documented operational decisions.

EMPLOYMENT HISTORY

Machine Learning Engineer | Cedar Fiction Studio | January 2023 to January 2026

Built Python training pipelines with split checks and reproducible feature transformations.

Trained PyTorch models and inspected errors by class before changing model capacity.

Used Docker in delivery work, with peer review and documented failure cases.

Owned a subscription workflow; checked outputs against recorded examples before release.

TECHNOLOGIES

Python, PyTorch, Docker

EDUCATION

Bachelor of Science | Fictional Institute of Technology
