

Candidate P002

Synthetic candidate profile

EMPLOYMENT HISTORY

IT Intern | Lowcountry Rentals | 2023-06 to 2023-08

Assisted with data entry and basic IT support. Learned about database management and reporting.

Part-time Cashier (Returning) | Charleston Seafood Market | 2021-05 to 2022-08

Handled transactions and customer service. Left for a year, returned briefly after studies resumed.

SKILLS

Apache Spark Streaming; Fault tolerance in streaming; Data partitioning; Consumer group management; Data governance for real-time data; Data lakes and lakehouses; Apache Kafka; Apache Spark; Amazon Kinesis; Apache Hudi; Python; SQL

EDUCATION

Associate of Applied Science | Computer Technology | Trident Technical College

2023-09 to 2025-06

PROJECTS

Real-Time Sensor Data Pipeline

Built a simulated IoT data pipeline using Kafka and Spark Streaming to process temperature readings. Implemented fault tolerance and partitioning. Technologies used: Apache Kafka, Apache Spark Streaming, Apache Hudi.

Lakehouse Explorer

Created a small lakehouse project using Hudi and Spark to manage streaming data. Focused on data governance and partitioning strategies. Technologies used: Apache Spark, Apache Hudi.
