

Candidate P023

Synthetic candidate profile

EMPLOYMENT HISTORY

Principal Python Developer | Meridian Professional Services | 2019-03 to Present

Lead migration of legacy systems to modern Python stack; design GraphQL APIs and optimize PostgreSQL performance for government clients.

Senior Python Developer | Meridian Professional Services | 2016-01 to 2019-02

Developed RESTful APIs and AWS-based solutions; introduced unit testing and type hints to improve code quality.

Python Developer | Cumberland Data Systems | 2014-01 to 2015-12

Built and maintained Python applications; focused on concurrency and debugging for data processing workflows.

Junior Python Developer | Cumberland Data Systems | 2012-06 to 2013-12

Supported senior developers; wrote unit tests and assisted with debugging and performance tuning.

SKILLS

Python; AWS; PostgreSQL; GraphQL; RESTful APIs; Concurrency; Debugging; Performance optimization; Type hints; Unit testing; Docker; Jenkins; GitLab; Unittest; Visual Studio Code; PyCharm; CI/CD; Microservices
