

Candidate P024

Synthetic candidate profile

EMPLOYMENT HISTORY

Distribution Associate | Metro Logistics Solutions | 2023-06 to Present

Process inbound and outbound shipments, operate warehouse management systems, and coordinate with team leads to meet daily distribution targets. Developed a script to automate inventory tracking, reducing manual errors by 20%.

SKILLS

Snowflake; Apache Flink; Apache Iceberg; Google BigQuery; Apache HBase; HDFS; Apache Hadoop; Python; Distributed computing; Cluster management; Data validation; Databricks

EDUCATION

Certificate in Data Engineering | Data Engineering | Coding Bootcamp

2023-09 to 2024-06

PROJECTS

Real-Time Streaming Pipeline with Apache Flink

Built a streaming pipeline to ingest and process clickstream data in real time, using Flink and Kafka, and stored results in Iceberg tables on Snowflake. Technologies used: Apache Flink, Apache Iceberg.

Batch ETL with Hadoop Ecosystem

Designed a batch ETL job using Hadoop and HBase to process log files and load aggregated data into BigQuery for analytics. Technologies used: Apache Hadoop, Apache HBase, Google BigQuery, Python.

CERTIFICATIONS

Databricks Certified Associate Developer for Apache Spark

Issued by Databricks.
