

Candidate P053

Synthetic candidate profile

EMPLOYMENT HISTORY

Frontend Development Intern | San Diego Research Institute | 2023-06 to 2023-08

Spearheaded the development of a mobile-first web application for data visualization, leveraging Angular and enhancing user engagement by 25% through responsive design and accessibility compliance.

Web Development Assistant | Institute for Climate Studies | 2023-09 to 2024-01

Collaborated with cross-functional teams to implement Vue.js components and optimized build processes using Vite, resulting in a 20% reduction in load times and improved code maintainability.

Freelance Web Developer | Self-employed | 2024-02 to Present

Designing and developing responsive websites for local businesses, focusing on WCAG compliance and integrating CI/CD pipelines to automate testing and deployment.

SKILLS

Angular; CI/CD; Build Tools (Webpack, Vite); CSS-in-JS; Web Accessibility (WCAG); Vue.js; Git; npm; Jest; Yarn; JavaScript; TypeScript; HTML5; CSS3

EDUCATION

Bachelor of Science | Computer Science | California State University San Marcos

2021-09 to 2025-06

PROJECTS

Accessible Education Dashboard

Developed a fully accessible dashboard for tracking student progress, implementing WCAG 2.1 standards and using Angular with CSS-in-JS for styling. Technologies used: Jest.

Mobile-First Study Tracker

Built a PWA using Vue.js and Vite to help students manage study schedules, featuring offline support and push notifications. Technologies used: Yarn.
