

Candidate P054

Synthetic candidate profile

EMPLOYMENT HISTORY

Logistics Coordinator | Heartland Distribution Services | 2023-09 to Present

Coordinate freight movements and inventory tracking. Use spreadsheets and internal tools to manage schedules, but I am eager to apply my Python skills to build more efficient data processing pipelines.

Telecommunications Equipment Operator | Ukrainian Armed Forces | 2019-06 to 2022-08

Operated and maintained communication systems in a military environment. Developed discipline and problem-solving skills, and learned to work under pressure.

SKILLS

Python; Django; PostgreSQL; RESTful APIs; Integration testing; Version control; Refactoring; Code review; Redis; Concurrency; GitHub Actions; Anaconda; Pipenv

EDUCATION

Associate of Science | Computer Science | Metropolitan Community College

2022-09 to 2024-06

Telecommunications | Kyiv Polytechnic Institute

2015-09 to 2019-06

PROJECTS

Inventory Dashboard

Built a Django-based dashboard to visualize inventory data for the logistics team, integrating with PostgreSQL and deploying via GitHub Actions.

API Integration for Shipping

Developed RESTful APIs to connect internal systems with shipping carriers, using Redis for caching and implementing integration tests. Technologies used: Python.

CERTIFICATIONS

PCEP – Certified Entry-Level Python Programmer

Issued by Python Institute.

2023-01
