

Candidate P074

Synthetic candidate profile

EMPLOYMENT HISTORY

Streaming Data Engineer | Bay Area Financial Insights Inc. | 2023-03 to Present

Leverage cutting-edge streaming technologies to architect robust data pipelines, ensuring real-time analytics for investment strategies. Spearhead performance tuning and implement stateful stream processing to deliver tangible business value.

Data Engineer | Pinoy's Delivery Service | 2021-01 to 2023-02

Engineered conventional batch processing to support operational analytics, while self-learning streaming paradigms. Transitioned to streaming data platforms, building foundational knowledge in Kafka and stream processing.

Junior Data Analyst | Smith Family Grocers | 2020-01 to 2020-12

Managed data entry and generated reports for a family-owned grocery chain. Gained exposure to data processing and developed a passion for real-time analytics, prompting a career pivot.

SKILLS

Data lakes and lakehouses; Performance tuning for streaming workloads; Checkpointing and recovery; Stateful stream processing; Data ingestion; Avro serialization; Streaming joins; Monitoring and alerting for streaming; Confluent Platform; Materialize; RisingWave; Apache Kafka; Kafka Streams

EDUCATION

Certificate in Data Analytics | Data Analytics | Community College of San Jose

2019-09 to 2020-06

Streaming Data Engineering | Online Bootcamp

2020-09 to 2021-06

PROJECTS

Real-Time Fraud Detection Pipeline

Built a end-to-end streaming pipeline for a financial services client, leveraging Confluent Platform and RisingWave for stateful processing and real-time alerts. Reduced fraud detection latency by 80%. Technologies used: Materialize.

Streaming Analytics Dashboard

Developed a real-time dashboard for operational metrics using Materialize and Kafka Streams, enabling instant visibility and proactive decision-making. Technologies used: Avro.

CERTIFICATIONS

Confluent Certified Developer for Apache Kafka

Issued by Confluent.

2022-01

Google Cloud Professional Data Engineer

Issued by Google.

2023-01
