

Candidate P083

Synthetic candidate profile

EMPLOYMENT HISTORY

Senior DevOps Engineer | Tundra Software Solutions | 2011-01 to 2017-06

Reduced incident resolution time by 40% through automated alerting and runbooks. Implemented blue/green deployments cutting rollback time from 30 to 5 minutes. Managed Kubernetes cluster administration for a 99.95% uptime SLA.

DevOps Engineer | Fox River Tech Services | 2008-02 to 2010-12

Built and maintained CI/CD pipelines, reducing release cycle from 2 weeks to 2 days. Implemented infrastructure testing using Chef, increasing deployment success rate by 25%.

Systems Administrator | Lakeview Manufacturing | 2005-06 to 2007-11

Administered Linux servers and automated routine maintenance, saving 10 hours per week. Collaborated on disaster recovery planning and testing.

SKILLS

Incident response and management; Infrastructure testing; Scripting and automation; Release management and rollback strategies; Observability and distributed tracing; Disaster recovery planning; Serverless and event-driven architecture; Kubernetes cluster administration; Blue/green and canary deployments; Linux system administration; Chaos engineering; AWS; Terraform; CI/CD; Python

EDUCATION

Bachelor of Science | Computer Science | University of Wisconsin-Green Bay

2003-09 to 2005-06

Associate of Science | Information Technology | Northeast Wisconsin Technical College

2001-09 to 2003-06

PROJECTS

Disaster Recovery Automation

Developed automated failover scripts that reduced RTO from 4 hours to 30 minutes. Used infrastructure testing and chaos engineering to validate recovery procedures. Technologies used: AWS, Terraform.

High Availability Kubernetes Cluster

Designed and deployed a multi-node Kubernetes cluster with Prometheus monitoring, achieving 99.95% uptime for critical services. Technologies used: Docker.

CERTIFICATIONS

AWS Certified DevOps Engineer – Professional

Issued by Amazon Web Services.

2015-01

CKA: Certified Kubernetes Administrator

Issued by Cloud Native Computing Foundation.

2017-01
