

Candidate P095

Synthetic candidate profile

EMPLOYMENT HISTORY

Machine Learning Engineer | National Retail Chain | 2021-01 to Present

Developed real-time anomaly detection for transaction fraud. Built monitoring dashboards with Spark and R. Maintain model pipeline on Kubernetes.

Machine Learning Engineer | DataWorks Agency | 2019-06 to 2020-12

Contract role: built anomaly detection for client in automotive sector. Used Python, Spark, Docker. Frequent short-term contracts.

Data Scientist (Contract) | Freelance | 2017-02 to 2019-05

Series of short projects: predictive maintenance, time series analysis, model tuning. Used LightGBM, Python.

Data Analyst | Auto Parts Inc. | 2014-03 to 2017-01

Analyzed production data, built dashboards in R. Shift work. Later moved to modeling.

Junior Analyst | Retail Analytics Co. | 2011-06 to 2014-02

Data cleaning, report generation. Learned Python and SQL on the job.

Assistant Manager | National Retail Chain | 2007-05 to 2011-05

Started as cashier, promoted to assistant manager. Worked shifts. Learned retail operations.

SKILLS

Python; Time Series Analysis; Spark; LightGBM; R; Big Data Technologies; Model Monitoring; NumPy; Docker; Kubernetes; Data Visualization

EDUCATION

Associate of Science | Computer Science | Norwalk Community College

2009-09 to 2011-06

PROJECTS

Fraud Detection System

Real-time anomaly detection with LightGBM and Spark, deployed on Kubernetes. Reduced false positives by 30%. Technologies used: Python.

CERTIFICATIONS

AWS Certified Machine Learning – Specialty

Issued by Amazon Web Services.

2020-01
