

Candidate P124

Synthetic candidate profile

EMPLOYMENT HISTORY

Data Operations Technician | Heartland Data Solutions | 2023-06 to 2024-07

Managed data ingestion pipelines and monitored cluster health. Assisted in troubleshooting data flow issues and optimizing storage on HDFS.

Technical Support Specialist | Heartland Data Solutions | 2022-01 to 2022-12

Provided technical support for internal data tools and customer-facing dashboards. Gained familiarity with big data concepts and infrastructure.

Sales Associate | Best Buy | 2021-05 to 2021-12

Assisted customers and processed sales. Learned to explain technical specifications clearly.

SKILLS

Apache Spark; Apache Kafka; Apache Airflow; Apache Hadoop; HDFS; Data ingestion; Stream processing; Cluster management; Apache Iceberg; Apache NiFi; Performance tuning; Python; SQL

EDUCATION

Bachelor of Science | Computer Science | Kansas State University

2018-09 to 2022-06

PROJECTS

Real-time Clickstream Analysis

Built a streaming pipeline using Kafka and Spark to process clickstream data in real time. Stored results in HDFS and visualized with Databricks. Technologies used: Apache Kafka, Apache Spark.

Data Lake Migration

Implemented a data lake on Amazon S3 using Apache Iceberg for a class project. Automated ETL with Airflow and optimized queries with BigQuery. Technologies used: Apache Airflow, Google BigQuery.

CERTIFICATIONS

Databricks Certified Associate Developer for Apache Spark

Issued by Databricks.

2024-01
