

Candidate P134

Synthetic candidate profile

EMPLOYMENT HISTORY

Web Developer | Community Tech Alliance | 2022-06 to Present

Rebuilding the nonprofit's event platform on serverless architecture, ensuring cross-browser compatibility and high accessibility. Leading migration of legacy Rails app to a microservices setup.

Lead Web Developer | Volunteer Hub | 2020-03 to 2022-05

Led a team of 5 developers building a volunteer management system with real-time features, implementing WebSocket load balancing and caching strategies. Also oversaw front-end architecture and mentored junior developers.

Senior Web Developer | Green Future Foundation | 2019-01 to 2020-02

Developed donation platforms and event microsites using server-side rendering and Event-driven Architecture to handle high traffic peaks. Improved monitoring and logging to reduce downtime by 30%.

Web Developer | TechBridge Solutions | 2017-06 to 2018-12

Built custom web applications for nonprofit clients, focusing on cross-browser compatibility and performance optimization. Used Express.js and Webpack for bundling and debugging.

Junior Web Developer | DataMinds Inc. | 2015-01 to 2017-05

Assisted in maintenance and feature enhancement of client portals, implementing caching strategies and testing procedures. Gained practical experience with WebSockets and microservices.

Web Developer Intern | Innovate Labs | 2014-06 to 2014-12

Interned on a team developing a React-based dashboard. Assisted with bug fixes and cross-browser compatibility testing.

SKILLS

Cross-browser Compatibility; Event-driven Architecture; Testing/Debugging; WebSockets; Version Control (Git); Monitoring and Logging; Caching Strategies; Server-side Rendering; Load Balancing; Microservices Architecture; NestJS; Express.js; Babel; Webpack

EDUCATION

Bachelor of Science | Computer Science | University of Virginia

2008-09 to 2012-06

PROJECTS

Real-Time Donation Tracker

Built a real-time donation tracking dashboard using WebSockets and event-driven architecture, enabling live updates for fundraising events. Deployed on AWS Lambda with caching strategies. Technologies used: NestJS, Express.js.

CERTIFICATIONS

AWS Certified Developer – Associate

Issued by Amazon Web Services.

2023-01

Certified JavaScript Developer

Issued by W3Schools.

2015-01
