

Candidate P135

Synthetic candidate profile

EMPLOYMENT HISTORY

Senior Node.js Developer | Regional HealthPartners | 2022-03 to Present

Spearheading the design and implementation of robust, scalable microservices for patient data management, leveraging Node.js and Fastify to ensure optimal performance and security. Collaborating with cross-functional teams to deliver seamless integrations with hospital systems, driving operational excellence.

Node.js Developer | MediSync Solutions | 2019-06 to 2022-02

Engineered RESTful APIs and real-time features for a patient portal, utilizing WebSockets to enable instant messaging and notifications. Played a pivotal role in refactoring legacy code to microservices architecture, enhancing system reliability and maintainability.

Junior Node.js Developer | AccraTech Solutions | 2016-01 to 2019-05

Developed and maintained various web applications, focusing on server-side logic and API development. Contributed to the implementation of authentication and authorization protocols, ensuring secure access to client resources.

SKILLS

Node.js; JavaScript; TypeScript; RESTful API design; Microservices architecture; NoSQL; Event-driven programming; WebSockets; PostgreSQL; TypeORM; Fastify; Jest; Yarn; AWS; Docker; Kubernetes; Memory leak detection; Serverless computing

EDUCATION

Master of Science | Computer Science | Middle Tennessee State University

2020-09 to 2022-06

Bachelor of Science | Computer Engineering | Accra Technical University

2012-09 to 2016-06

Certificate | Web Development | Nashville State Community College

2018-09 to 2019-06

PROJECTS

Real-time Patient Monitoring Dashboard

Designed and implemented a real-time dashboard for monitoring patient vitals using Node.js, WebSockets, and PostgreSQL. Enabled healthcare providers to receive instant alerts and visualize data trends. Technologies used: React.

Microservices Migration for Legacy System

Led the migration of a monolithic healthcare system to a microservices architecture, improving scalability and deployment efficiency. Utilized Docker and Kubernetes for container orchestration. Technologies used: Node.js, AWS.

CERTIFICATIONS

AWS Certified Developer – Associate

Issued by Amazon Web Services.

2023-01

OpenJS Node.js Application Developer (JSNAD)

Issued by OpenJS Foundation.

2021-01
