

Candidate P145

Synthetic candidate profile

EMPLOYMENT HISTORY

Pharmacy Technician | Manchester Community Pharmacy | 2010-04 to 2019-06

Managed inventory and prescription data entry, ensuring accuracy in a fast-paced environment. Worked rotating shifts. Developed an eye for detail and process adherence that translates to data governance.

Data Entry Clerk | Regional Logistics Solutions | 2019-07 to 2023-08

Transitioned into logistics, handling shipment data entry and reporting. Supported integration of tracking systems, which sparked a deeper interest in data pipelines.

Data Engineering Fellow (Contract) | Streamline Analytics Studio | 2024-01 to 2024-06

Completed a 6-month contract project as part of a bootcamp, building a data lake prototype using Kafka and Redshift. Focused on change data capture and data governance.

SKILLS

Data integration; Data lake architecture; Change data capture; Schema design; Data governance; Kappa architecture; Apache Kafka; Scala; Redshift; Apache Airflow; Stitch; Java

EDUCATION

Associate of Science | Health Sciences | Southern New Hampshire University

2008-09 to 2010-06

PROJECTS

Real-Time Logistics Dashboard

Designed a Kappa architecture pipeline to ingest live shipment tracking data from Kafka, storing aggregated metrics in Redshift for real-time dashboards. Implemented change data capture for incremental updates. Technologies used: Apache Kafka, Scala.

CERTIFICATIONS

AWS Certified Big Data – Specialty

Issued by Amazon Web Services.
