

Candidate P175

Synthetic candidate profile

EMPLOYMENT HISTORY

Principal Data Engineer | NovaGrid Analytics | 2021-03 to Present

Lead data platform architecture. Built real-time ingestion pipelines with NiFi and Airflow. Optimized Delta Lake storage.

Lead Big Data Engineer | CloudStream Systems | 2018-02 to 2021-02

Led team of 5 engineers. Migrated on-prem HDFS to AWS EMR. Implemented dbt for transformations.

Senior Big Data Engineer | NovaGrid Analytics | 2015-06 to 2017-12

Designed data models. Built MapReduce jobs. Introduced Snowflake for warehousing.

Big Data Engineer | Sentinel Data Corp | 2012-01 to 2015-05

Built batch pipelines. Maintained HDFS clusters. Handled data validation.

SKILLS

MapReduce; Distributed computing; Data ingestion; Delta Lake; Snowflake; HDFS; Data validation; Apache NiFi; Apache Airflow; dbt; Amazon EMR; Python; SQL; Spark; Kafka

PROJECTS

Real-time IoT Pipeline

Designed streaming pipeline for sensor data using NiFi, Kafka, and Airflow. Reduced latency by 60%. Technologies used: Apache NiFi, Apache Kafka, Apache Airflow.

CERTIFICATIONS

Cloudera Certified Professional (CCP) Data Engineer

Issued by Cloudera.

2016-01

AWS Certified Big Data - Specialty

Issued by Amazon Web Services.

2019-01
